

Good Afternoon

**Apprenticeship Talent Pool!**

I hope you are well in these extremely trying times.

Telford College has the ethos and the responsibility to support our local community in any way we can - whilst we all adapt to new ways of working for the next few weeks, we want to be in a strong position to support young people into Apprenticeships as soon as the businesses are ready.

Our plan is to have a strong talent pool of candidates, ready for employers, for when things start to improve, laying solid foundations for a brighter future. Speaking to employers we are certain that there will be a demand for young talent to try and get back to business as usual.

Our dedicated apprenticeship team are starting to interview candidates via Skype and video chat to create a strong talent pool for employers, we would really like to engage with your students and invite them to take part and be available for all opportunities as they arise.

We already have vacancies ready to start in August for the following areas: Engineering, Electrical Installation, Human Resourcing, Accounts, Business Administration, Digital/ IT and many others. These are some of the great companies we are working with: NHS Trusts, Muller, Magna, British Gymnastics , Avara Foods, Schneider Electric, McPhillips, , T&W Council,

We would like to email a flyer to you, for distribution to your students, this will explain how they can be considered for the Apprenticeship talent pool. Can you please let me know if you would like the flyer to distribute?

Take care and lets build a future for these bright young adults!

Many thanks

Amanda Carpenter | Business Development Executive | T: 01952 642289 | M: 07827839190
