

## BTEC Level 3 Extended Certificate in Health and Social Care

**Are you passionate about helping the vulnerable, young children, or those in need? Are you looking for a worthwhile and fulfilling career? If yes, then why not consider a Health and Social Care course.**

### Course Overview

This course is for students interested in learning about factors that affect human development from birth through to old age. It aims to develop students' understanding of psychological and sociological explanations of behaviour as well as theories about effective communications. Students will learn how to use these theories and concepts in health, social care or early years' settings and learn the laws and actions necessary to promote equality, rights and safety in the workplace.
